Домашнее задание: К уроку: стр. 20, упр.64 – доклады об исследователях космоса.

Ход урока

Организационный момент (2 minutes)

- Good morning, students! - I am glad to see you! (We are glad to see you too!)

-What date is it today? - How are you?

Фонетическая зарядка р. 20, ex. 65 (3 minutes)

Ok, thank you. And now repeat the words after me: Earth, Mercury, Venus, Jupiter, Pluto, Mars, Uranus, Neptune, Saturn.

Try to read these words: to explore, exploration, research, a researcher, launch, cosmonaut. Translate them. Try to make your own word combinations and sentences using these words.

Речевая зарядка (2minutes)

Answer my questions please: What is the biggest planet? (Jupiter) What is the smallest planet? (Pluto) What colour is Mars? (Red) Which planet has got rings? (Saturn) Why is the Earth very special?

Введение в тему урока

Good. Thank you. For thousands of years people have been dreaming of travelling through space. This dream became true only in the 20th century thanks to the space researchers. As you understand, today we are going to talk about space and space exploration. What do you think about exploring space? Why?

Проверка домашнего задания (8 minutes) р.20, ex.64

Your home task for today was to make short reports on the well-known space researcher. And now I offer you to fill in the table while listening to the reports.

Name, surname	Date of birth/death	nationality	contribution to space exploration
K. Tsiolkovsky	1857-1935	Russian	invented the idea of space rockets
S. Korolev	1906-1966	Russian	constructed the first space ship
Y. Gagarin	1934-1968	Russian	was the first astronaut
V. Tereshkova	1937	Russian	was the first woman in space
A. Leonov	1934	Russian	was the first man to walk in space
N. Armstrong	1930	American	was the first man on the moon

Аудирование текста (5 minutes)

What do you think about exploring space? Some people think it's a waste of money.

And we have a lot of serious problems on the Earth such as pollution, a lot of crime, wars. Listen to the teenagers speaking about space exploration. As you listen to their comments, complete the sentences. Let's check the missing words. p.20, ex.66.

Чтение текста (15 minutes)

Space exploration has always been a romantic idea of people. They wanted to travel to see the world from outside the Earth. Let's read the text about space discoveries and find the answer. p.22, ex.73.

And now let's answer the questions: How did people first begin to dream about space travel? What are the achievements of Russia in space research? What facts from the text have impressed you?

Завершение работы /рефлексия (5 minutes)

At the beginning of the lesson I asked what do you think of space exploration. And now I repeat my question: what do you think of space exploration? Is it good or bad? Why? What are advantages and disadvantages of space exploration?

Домашнее задание, выставление отметок (2 minutes)

Your home task will be to write a composition about space exploration. Use the words combinations from ex. 67, p.20.

Your marks are... Our lesson is over. Thanks for your work.

- Good morning, students! I am glad to see you! I hope you are all right and you are ready to start our work.
